HEPATITIS B VIRUS (HBV)

1.1	AHBV 101	HBcore Ag <i>E.coli</i> derived protein recombinant contains immunodominant region of HBV core antigen	Without tag
1.2	AHBV 102	HBeAg <i>E.coli</i> derived protein recombinant contains immunodominant region of HBV e antigen	GST
1.3	AHBV 201	HBsAg adw1 <i>Pichia pastoris</i> derived protein recombinant contains immunodominant region of HBV surface antigen adw1 subtype	Without tag

HEPATITIS C VIRUS (HCV)

2.1	AHCV 111	HCV core <i>E.coli</i> derived protein recombinant contains immunodominant region of HCV core, genotype 1b	GST
2.2	AHCV 116	HCV core, mosaic <i>E.coli</i> derived mosaic protein recombinant contains immunodominant regions of HCV core, genotype 1b	GST
2.3	AHCV 201	HCV NS3 <i>E.coli</i> derived protein recombinant contains immunodominant region of HCV NS3, genotype 1a	GST
2.4	AHCV 207	HCV NS3 <i>E.coli</i> derived protein recombinant contains immunodominant region of HCV NS3, genotype 1b	GST
2.5	AHCV 208	HCV NS3 <i>E.coli</i> derived protein recombinant contains immunodominant region of HCV NS3, genotype 1b	GST
2.6	AHCV 210	HCV NS3 <i>E.coli</i> derived protein recombinant contains immunodominant region of HCV NS3, genotype 2c	GST
2.7	AHCV 215	HCV NS3 <i>E.coli</i> derived protein recombinant contains immunodominant region of HCV NS3, genotype 1c	GST
2.8	AHCV 300	HCV NS4, mosaic <i>E.coli</i> derived mosaic protein recombinant contains immunodominant regions of HCV NS4	GST
2.9	AHCV 302	HCV NS4, mosaic <i>E.coli</i> derived mosaic protein recombinant contains immunodominant regions of HCV NS4	GST
2.10	AHCV 303	HCV NS4, mosaic <i>E.coli</i> derived mosaic protein recombinant contains immunodominant regions of HCV NS4	GST
2.11	AHCV 304	HCV NS4, mosaic <i>E.coli</i> derived mosaic protein recombinant contains immunodominant regions of HCV NS4	GST
2.12	AHCV 305	HCV NS4, mosaic <i>E.coli</i> derived mosaic protein recombinant contains immunodominant regions of HCV NS4	GST
2.13	AHCV 307	HCV NS4, mosaic <i>E.coli</i> derived mosaic protein recombinant contains immunodominant regions of HCV NS4	GST
2.14	AHCV 401	HCV NS5 <i>E.coli</i> derived protein recombinant contains immunodominant region of HCV NS5, genotype 1b	GST
2.15	AHCV 403	HCV NS5 <i>E.coli</i> derived protein recombinant contains immunodominant region of HCV NS5, genotype 1a	GST
2.16	AHCV 406	HCV NS5 <i>E.coli</i> derived protein recombinant contains immunodominant region of HCV NS5, genotype 3a	GST

HEPATITIS E VIRUS (HEV)

3.1	AHEV 101	HEV ORF2 <i>E.coli</i> derived protein recombinant contains immunodominant region of HEV ORF2	GST
3.2	AHEV 102	HEV ORF2-ORF3 <i>E.coli</i> derived mosaic protein recombinant contains immunodominant regions of HEV ORF2 and ORF3	GST

SYPHILIS

4.1	ASIF 101	Tp p17 <i>E.coli</i> derived protein recombinant contains immunodominant region of <i>Treponema pallidum</i> p17	β-galactosidase + 6 His
4.2	ASIF 102	Tp p41 <i>E.coli</i> derived protein recombinant contains immunodominant region of <i>Treponema pallidum</i> p41	β-galactosidase + 6 His
4.3	ASIF 103	Tp p47 <i>E.coli</i> derived protein recombinant contains immunodominant region of <i>Treponema pallidum</i> p47	β-galactosidase + 6 His
4.4	ASIF 105	Tp TmpA, mosaic <i>E.coli</i> derived mosaic protein recombinant contains immunodominant regions of <i>Treponema pallidum</i> p41	GST
4.5	ASIF 905	Tp p15 <i>E.coli</i> derived protein recombinant contains immunodominant region of <i>Treponema pallidum</i> p15	6 His
4.6	ASIF 906	Tp p17 <i>E.coli</i> derived protein recombinant contains immunodominant region of <i>Treponema pallidum</i> p17	6 His
4.7	ASIF 907	Tp p41 <i>E.coli</i> derived protein recombinant contains immunodominant region of <i>Treponema pallidum</i> p41	6 His
4.8	ASIF 908	Tp p47 <i>E.coli</i> derived protein recombinant contains immunodominant region of <i>Treponema pallidum</i> p47	6 His

HUMAN IMMUNODEFICIENCY VIRUS (HIV)

5.1	AHIV 103	HIV-1 M gp41 <i>E.coli</i> derived protein recombinant contains immunodominant region of HIV-1 group M gp41	β-galactosidase + 6 His
5.2	AHIV 1030	HIV-1 M gp41 <i>E.coli</i> derived protein recombinant contains immunodominant region of HIV-1 group M gp41	GST
5.3	AHIV 104	HIV-2 gp36 <i>E.coli</i> derived protein recombinant contains immunodominant region of HIV-2 gp 36	β-galactosidase + 6 His
5.4	AHIV 105	HIV-1 M p24 <i>E.coli</i> derived protein recombinant contains immunodominant region of HIV-1 group M p24	GST
5.5	AHIV 106	HIV-2 gp36 <i>E.coli</i> derived protein recombinant contains immunodominant region of HIV-2 gp36	GST, 6 His, S-tag
5.6	AHIV 107	HIV-1 M gp160 <i>E.coli</i> derived protein recombinant contains immunodominant region of HIV-1 group M gp160	6 His
5.7	AHIV 108	HIV-1 M p31 <i>E.coli</i> derived protein recombinant contains immunodominant region of HIV-1 group M p31 (integrase)	GST
5.8	AHIV 1090	HIV-1 M gp120 (v3 loop) <i>E.coli</i> derived protein recombinant contains the V3 loop region of HIV-1 group M gp 120 subtype C	GST, 6 His, S-tag
5.9	AHIV 112	HIV-1 O env, mosaic <i>E.coli</i> derived mosaic protein recombinant contains immunodominant regions of HIV-1 group O gp160	6 His

HERPES SIMPLEX VIRUS (HSV)

6.1	AHSV 101	HSV-1 gD <i>E.coli</i> derived protein recombinant contains immunodominant region of HSV-1 glycoprotein D	GST
6.2	AHSV 102	HSV-2 gD <i>E.coli</i> derived protein recombinant contains immunodominant region of HSV 2 glycoprotein D	GST
6.3	AHSV 103	HSV-2 gG <i>E.coli</i> derived protein recombinant contains immunodominant region of HSV 2 glycoprotein G	GST
6.4	AHSV 104	HSV-1 gG <i>E.coli</i> derived protein recombinant contains immunodominant region of HSV 1 glycoprotein G	GST

CYTOMEGALO VIRUS (CMV)

7.1	ACMV 102	CMV pp150 (UL32) <i>E.coli</i> derived protein recombinant contains immunodominant region of CMV pp150 (UL32)	GST
7.2	ACMV 105	CMV pp52 (UL44) <i>E.coli</i> derived protein recombinant contains immunodominant region of CMV pp52 (UL44)	GST
7.3	ACMV 108	CMV gB, mosaic <i>E.coli</i> derived mosaic protein recombinant contains immunodominant regions of CMV gB	GST, 6 His, S-tag

TOXOPLASMA GONDII

8.1	ATG 401a	Toxoplasma SAG1 <i>E.coli</i> derived protein recombinant contains immunodominant region of Toxoplasma gondii SAG1(p30)	GST, 6 His, S-tag
-----	----------	---	-------------------

EPSTAIN-BARR VIRUS (EBV)

9.1	AHHV4 102b	EBV EBNA-3A <i>E.coli</i> derived protein recombinant contains immunodominant region of HHV-4 EBNA-3A (BLRF3)	GST
9.2	AHHV4 104a	EBV EBNA-1, mosaic <i>E.coli</i> derived protein recombinant contains immunodominant regions of HHV-4 EBNA-1	GST
9.3	AHHV4 105	EBV EA-D <i>E.coli</i> derived protein recombinant contains immunodominant region of HHV-4 p54 EA-D (BMRF1)	GST
9.4	AHHV4 911	EBV p18 <i>E.coli</i> derived protein recombinant contains immunodominant region of HHV-4 p18	GST

TICK-BORNE ENCEPHALITIS VIRUS (TBEV)

10.1	ATBE 904d	TBEV gE <i>E.coli</i> derived protein recombinant contains C-end immunodominant region of TBEV glycoprotein E	GST
------	-----------	---	-----

CHLAMYDIA TRACHOMATIS

11.1	ACHT 103	Chlamydia MOMP <i>E.coli</i> derived protein recombinant contains immunodominant region of Chlamydia trachomatis MOMP	GST, 6 His, S-tag
------	----------	---	-------------------

STREPTAVIDIN

12.1	ASTREP 919a	rec Streptavidin <i>E.coli</i> derived protein recombinant from <i>Streptomyces avidinii</i>	Without tag
------	-------------	--	-------------

CONJUGATES

13.1	AHIV-p-1030	HIV-1 M gp41 - HRP <i>E.coli</i> derived protein recombinant contains region of HIV-1 group M gp41, Horseradish peroxidase labeled
13.2	AHIV-b-1030	HIV-1 M gp41 - Biotin <i>E.coli</i> derived protein recombinant contains region of HIV-1 group M gp41, Biotin labeled
13.3	AHIV-p-106	HIV-2 gp36 - HRP <i>E.coli</i> derived protein recombinant contains region of HIV-2 gp36, Horseradish peroxidase labeled
13.4	AHIV-b-106	HIV-2 gp36 - Biotin <i>E.coli</i> derived protein recombinant contains region of HIV-2 gp36, Biotin labeled
13.5	ASTREP-p-919a	rec Streptavidin - HRP <i>E.coli</i> derived protein recombinant contains full size streptavidin sequence, Horseradish peroxidase labeled
13.6	ASTREP-p-919b	rec Streptavidin - HRP <i>E.coli</i> derived protein recombinant contains full size streptavidin sequence, Horseradish peroxidase labeled, additionally purified
13.7	091-008-42497	Conjugate-1 Conjugate of antibodies to HBsAg with biotin
13.8	091-009-42498	Conjugate-2 Conjugate of recombinant Streptavidin with Horseradish peroxidase concentrated 11-fold
